

Each session starts promptly at 2:30 and lasts until 4:30.

Hampden Academy

Session Date	Mentor	Agenda	Goal	Objective
September 22, 2009	Featured: All Mentors	Project Introduction, Phases of Design Discussion, Explaining Scholarship Requirements	1. Collect Consent Forms 2. Create Teams 3. Discuss Project	Start documenting Ideas and design strategies
October 6, 2009	Featured: All Mentors	"Meet the Client" / Working session	1. Discuss Scope 2. Review adjacency diagrams	Create a list of questions for field trip
October 20, 2009	Featured: Matt Carter/ All	Field trip to Brewer Public Safety Building w. Safety and Code Discussion	1. Collect Programming Diagrams	Create Adjacency Diagrams
November 3, 2009	Featured: Jenifer Richard	Field trip to WBRC - Sustainability Lecture/Tour of WBRC	1. Incorporate Sustainable design elements into project	Reduce negative impacts on the environment
November 17, 2009	Featured: All Mentors	Working Session/Critique	1. Develop Architecture of building	Continue working on Floor plans
December 1, 2009	Featured: Steve Pedersen	Drawings: What are Blueprints/ Construction Documents and how do you read them? Working session	1. Collect Sustainable design solution 2. Understand a drawing set	Site/Architecture Development
December 15, 2009	Featured: All Mentors	Brewer K-8 Field Trip with drawing set	1. Visualize a building site starting with floor plans	Architectural Development
January 5, 2010	Featured: Xenia Rofes	Bridge/Building Lab	1. Engineering Methods	Develop floor plans with consideration for code and sustainability
January 19, 2010	Featured: Paul Monyok	Civil engineering overview, site analysis, and surveying lecture	1. Collect floor plans with code compliance and sustainable options	Building Orientation on Site
February 2, 2010	Featured: All Mentors	Field Trip to UTC		
February 23, 2010	Featured: Rob Beal	Sketchup Introduction Working Session/ Critique	Develop design	
March 9, 2010	Featured: All Mentors	Field Trip to UTC	1. Collect buildings orientation on site	Start thinking about Materials
March 23, 2010	Featured: Gary Frankel	Computer Skills Technology Lecture	1. To understand the software and tools used in the construction industry	Incorporate different ways of communicating your design for final the presentation
April 6, 2010	Featured: All Mentors	Work Session, Critique	1. Select materials for the building and continue developing design	Create a list of Materials used in project both exterior/interior
April 27, 2010	Featured: Tom Figura	Scheduling and Estimating Lecture	1. Collect revised floor plans showing sustainable elements and code corrections	Start Applying Costs to materials list
May 11, 2010	Featured: All Mentors	Field Trip to AEW, Orono		
May 25, 2010	Featured: Gary Frankel	Working Session/ Crit /Presentation Prep	1. Public Speaking Review 2. Presentation Media	Complete estimates
June 8, 2010	Featured: All Mentors	Presentation Preparation	1. Practice Presentation 2. Collect Exterior/Interior Estimates	Complete Presentation
June 11, 2010	Featured: All Mentors	Final Presentation	1. Full Presentation Due!
