### PROFILE

*Architecture student with expertise in model making and hand drafting. There is geography, there are places, and then there are spaces. Wherever we are, there are spaces that fix us in space and time—a domain. I enjoy such a loose kind of stability. I have been studying space at The Cooper Union for three years and architecture continues to fascinate me. I love studying space and am also open to the other nuances of life.*

### EDUCATION

**The Irwin S. School of Architecture**, Fall 2006 – Present

**1<sup>st</sup> Yr.** Tectonic analysis of Mies Van Der Rohe's Seagram Building for the first semester. Designed a Surveyors' House second semester.

**2<sup>nd</sup> Yr.** Formal analysis of Adolf Loos' Erwin Rosenberg House for the first semester. Designed an urban villa in NYC for two people who do not like each other.

**3<sup>rd</sup> Yr.** Experiential analysis of Louis Kahn's First Unitarian Church for the first semester. Designed a library in Greenwich Village, NYC.

**The Cooper Union Continuing Education**, Summer 2009 *French II and Glories of the Old Masters at the Met*

**FIT**, 2008 *Sewing Techniques I*

**Edward R. Murrow High School**, 2002-2006 *Advanced High School Regents Diploma*
