Subject: Northrop Grumman Engineering Scholarships

---

I am writing to make you aware that Northrop Grumman is now accepting applications for the engineering scholarship competition. Northrop Grumman awards one scholarship to a student in each of Maryland's 24 school systems. This is in support of promising high school seniors who will be pursuing careers in engineering related fields. The student must plan to attend an engineering program at a four-year accredited university. The application deadline is March 31, 2009. This is a wonderful opportunity for our students, and I would hope that you share this information with the supervisors of guidance, science, mathematics and career and technology education.

For more information about the application process, please contact René Wilkins from Northrop Grumman Electronic Systems Community Outreach at (410) 993-8483 or via email at [rene.wilkins@ngc.com](mailto:rene.wilkins@ngc.com). You may also go to the following website: <http://www.es.northropgrumman.com/engscholars/>. Questions about the scholarships can be directed to: [commoutreach@ngc.com](mailto:commoutreach@ngc.com).
