To: Alna Petrasek  
Chairman of the Board  
ACE San Diego Chapter Mentor Program

As a senior at Construction Tech Academy, I would like to thank you for financially supporting my higher education. I will work hard to make your organization proud and glad for choosing me as the scholarship recipient. I understand I have a lot of work ahead of me, but with this financial aid, I will be able to focus more on my education by attending office hours and doing extra studying.

I will be graduating from Construction Tech Academy with honors and as the President of our school's Associated Student Body. As the first one in my family to graduate from high school and attending a university, I have created a lot of pride in my family. They would like to thank you for assisting me in this way. It has made me extremely happy to see my mother's reactions when I told her I had received the scholarship.

I look forward to starting my academic year at San Diego State University (SDSU) next fall. I am more excited because I will be pursuing a Construction Management degree, something I have been looking forward to for years. When I attend SDSU, I hope to be involved in multiple extra curriculum activities and student life. Living near San Diego State University has made me feel like it is already my home. This award will facilitate my stay in SDSU.

Once again, thank you for this great opportunity.

Your organization makes dreams come true.

Sincerely,

José G. Bojorquez

Keith Keeter Memorial Scholarship Foundation

To whom it may concern,

I would like to express my gratitude towards your organization, first of all, for taking the initiative to assist in the development and education of young people such as myself. It is because of organizations like yours that underprivileged young people are able to pursue their dreams of a higher education.

I am especially grateful to you for recognizing my performance at Construction Tech Academy and in the ACE Program. Finally, thank you for rewarding me with the Keith Keeter Memorial Scholarship, of two thousand five hundred dollars. This money will greatly ease the load of paying for college, and bring me that much closer to achieving my goal of a degree in Construction Engineering at San Diego State University. With the economy as it is in our country, my father has worked on and off for nearly two years now, and I am depending totally on scholarships and financial aid to pay for my education. Thus far I have attained enough scholarships to pay for tuition and books for the next four years, and thanks to this scholarship, I will now be able to spend a little less time working and more time studying to become the best I can be.

Receiving this scholarship has taught me something in its own which is the significance of giving back to my community and helping others. I wish I had met Mr. Keith Keeter, for I am sure he would be proud to hear that I have already made plans to return to the ACE Program during the next school year as a mentor. Thank you once more, not just for aiding my education, but for impacting my life.

Sincerely,

ACE Scholarship Committee  
ACE Mentor Program 2009

To Whom it May Concern,

It is truly an honor to be able to receive one of this years ACE Scholarships. But not any scholarship, this was one of two \$5,000 scholarships awarded to those students who demonstrated a strong commitment to the club. With the help of this financial aid, my dream of being the first in my family to go to college is now becoming a reality.

Ever since I was little, my parents always encouraged me to always apply myself at anything I did; to always go above and beyond. Soon after, when I started school, it became a goal of mine to one day attend college. Now, 12 years later, I can proudly say that I have achieved this goal; I will be attending UCSD as an engineering major this fall.

But the transition from high school to college has not been easy, many obstacles have come up along the way. One such obstacle has been finding the resources necessary to finance such an education. Fortunately, I have had the help of scholarships such as this one who help me with this important component of college.

Again, thank you on behalf of my family and I who would otherwise have a hard time making ends meet in these tough economic times. Your help sets the foundation for my future education!

Sincerely,

Enrique Chavez

Dear ACE Scholarship Committee,

I am very honored and thankful that you have chosen me out of the many candidates to receive the ACE Scholarship. This has been my first year in the ACE Mentoring Program and while being here, I have learned so much from the mentors and the other students around me. While in this program, I have seen the different types of industries and jobs surrounding architecture, construction, and engineering. I have enjoyed my experience with ACE very much and I plan on staying with ACE Mentoring Program once again my senior year.

The scholarship will benefit me in my future career, Interior Architecture. Interior Architecture has been my dream job for a while and with this scholarship I will be able to fulfill this dream of mine. Although I currently do not know which college I will be attending next fall, the scholarship will help me and my family financially.

I would also like to take this opportunity to thank my ACE Mentor, Mr. Paul McParlane from McParlane & Associates for recommending me for the ACE Scholarship. Paul McParlane saw a future in me and I thank him. Without the help of Paul McParlane I would probably not be where I am at.

Again, thank you, ACE Scholarship Committee.

Sincerely,

Rosario Curiel
