University of Florida, Gainesville, FL, Master of Science, Civil Engineering

Licenses and Certifications:

Professional Engineer, Certified Energy Manager

Professional Affiliations: Society of American Military Engineers

How long have you been a mentor? 4 Years

Who or what inspired you to join ACE as a mentor?

Several co-workers were mentors and encouraged me to give it a try.

What have you found to be most rewarding about being a mentor?

Watching the students and seeing how well they come together working on their projects. The students that I've had the privilege of working with have all been extremely smart and creative.

What is the most surprising thing(s) you've learned from being a mentor?

The quality of students that we have in this area is amazing. When I was their age, I knew -- or at least thought I knew -- what I wanted to do with my life, but these students are following through to see if a career in architecture, engineering, or construction is for them.
