How long have you been a mentor? Since 2009

Who or what inspired you to join ACE as a mentor?

Unique opportunity to teach students about careers in the construction industry.

What have you found to be most rewarding about being a mentor?

The students' enthusiasm and creative energy when they develop their projects and presentations.

What is the most surprising thing(s) you've learned from being a mentor?

I'm amazed by the number of students who have a strong working knowledge of AutoCAD and 3D modeling tools like Revit. Students are also very aware of how sustainable design decisions impact our environment.
