The ACE Mentor Program (Architecture, Construction and Engineering) helps mentor high school students and inspires them to pursue careers in design and construction.

Since inception, ACE Twin Cities has awarded over $100,000 in scholarships to promising participants.

Our mission is to engage, excite, and enlighten high school students to pursue careers in architecture, engineering, and construction through mentoring and to support their continued advancement in the industry.

ACE not only engages sponsors and volunteer mentors to expose students to real-world opportunities, it financially supports each student’s continued success through scholarships and grants.

Current and Past Participating High Schools:
- Edina
- Hopkins
- Brooklyn Center

why participate and donate?

1. Helps solve the workforce challenge by investing in the future workforce (74% of ACE students take steps to pursue A/E/C careers).
2. Creates an opportunity to “give back” to the A/E/C industry.
3. Enhances your company image with recognition via the website and other publications.
4. Connects your firm to talented and motivated potential future employees.
5. Promotes and increases diversity in the industry (68% are minority or multi-racial/ethnic).
6. Provides networking and philanthropic opportunities for mentors.
7. Awards scholarships and motivates local students to attend college or an apprenticeship program.

An education that goes well beyond textbooks.

By working with real professionals in real work environments, ACE students receive an invaluable hands-on education — they learn to understand the day-to-day workings of a business by living it, experiencing it, not merely reading about it.

64% of students report ACE gave them hands-on introduction to one or more skilled trades.

89% of students report feeling more motivated to go to college.

84% say their ACE experience made their high school studies more meaningful.

80% felt more motivated to study in high school as a result of ACE.
