The second annual Invitation to Bid Art Auction encourages art enthusiasts to add to their collections by purchasing art created by local architects, engineers, designers and artists. This event is meant to celebrate the natural environment, eclectic architecture, and vibrant community of Omaha.

The ACE Mentor Program of Greater Omaha is a nonprofit organization of volunteers using hands-on projects and training to engage high school students interested in careers in architecture, engineering and construction. All proceeds from this event will go to a scholarship fund for Omaha-area high school students participating in the ACE Mentor Program.
