Why you decided to be an ACE Mentor?

I decided to be an ACE Mentor after being encouraged by a current ACE Mentor that had positive things to say about the program and about what additional Architectural/Construction/Engineering perspectives could offer.

ACE MENTOR PROGRAM
ARCHITECTURE • CONSTRUCTION • ENGINEERING

Why you chose the building industry?

My family has been in construction in SW Mississippi and Central Louisiana for 50 years. I find my greatest value serving as a practical coordinator between conscientious design and applicable constructability management.
