

Dear ACE Friends & Supporters,

We are excited to provide an update on the ACE Mentor Program California Capital, serving the Sacramento area. We formed in early 2021 amid the COVID pandemic and successfully completed two sessions with local students in 2021 and 2022. We've introduced the architecture, engineering, and construction fields to dozens of local high school students, including providing internships, college scholarships, and summer camp sponsorship to several students.

As we are getting set to continue our program and McClatchy High School and look to expand the program to other schools in the near future, we are looking for local businesses to partner with us to support the program. We've successfully raised \$4,500 and need an additional \$10,000 to run the program next year. Your support is key to continuing the program and giving deserving students the chance to earn college scholarships.

We ask that you please consider donating to our program for the 2022-2023 school year. Your contribution will be used to purchase supplies used during the hands-on activities, provide refreshments for students, offer college scholarships, and send students to ACE summer camps.

Your donation will have a direct impact on local students and help inspire them to pursue a career in the architecture, construction, or engineering field! You can donate online at acementor.org/ca-capital or send a check made payable to "ACE Mentor Program California Capital" to the following address:

Stantec (c/o Sarah McIlroy) • 3875 Atherton Road • Rocklin, CA 95765

Thank you for your consideration, and please do not hesitate to contact me at (916) 717-9635 or [ccapital@acementor.org](mailto:cacapital@acementor.org) with any questions.

Sincerely,

Sarah McIlroy
ACE CA Capital Board Member

Engage Excite Enlighten

Spring 2021 Inaugural Virtual Program

Shortly after we incorporated, we were able to conduct a pilot program virtually with Mountain House High School. We had 24 students who met five times to talk about our industry. The virtual engagement was terrific. We were lucky to send three students to a virtual ACE summer camp.

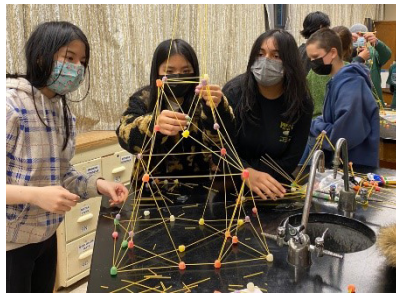

Learning about Design

Toothpick & Marshmallow Building Challenge

Spring 2022 In-Person Program at C.K. McClatchy High School

We are excited to announce that we have partnered with C.K. McClatchy High School to start our local in-person program. During the 2021-2022 school year, we had 24 students and eight mentors for an 8-week session full of hands-on activities. The students learned basics about our industry, including focus weeks on sustainability and the trades.

Toolbox Measuring Challenge

2022 Summer Opportunities

As part of ACE's goal of workforce development, the program doesn't stop at the end of the school year. We were fortunate to place four students in month-long paid internships and to send one student to a week-long ACE Summer Camp at CU Denver.

ACE Mentor Students at C.K. McClatchy High School

ACE Mission

To ENGAGE, EXCITE and ENLIGHTEN high school students to pursue careers in architecture, engineering, and construction through mentoring and to support their continued advancement in the industry.

About ACE

ACE is a FREE after-school program open to high school students with the curiosity and drive to learn about the various career paths in the design & construction industry.
