

# ACE MENTOR PROGRAM OF COLORADO SPONSORSHIP OPPORTUNITIES

## OUR MISSION

To engage, excite and enlighten high school students to pursue careers in architecture, engineering and construction through mentoring and to support their continued advancement in the industry.

## ACE MENTOR'S TWO PRIMARY GOALS ARE TO:

- Create a large, diverse, better-prepared workforce for our industry.
- Assist and guide students as they proceed along their pathways to opportunities in our industry through internships and support..

## WHY ACE IS IMPORTANT

- Helps student evaluate the integrated construction industry as a career path.
- Construction is one of the largest Industries in United States and employs more than 7 million people.
- The retirement of baby boomers in all parts of the industry is creating a serious workforce shortage so there is great opportunities for the next generation.
- Students work with industry professionals and learn skills including presentation skills, teamwork, organization and many others.
- The program also assists students in the process of exploring post-secondary education.
