ACE DC WELCOMES NEW BOARD MEMBER

(Washington, D.C.) The ACE Mentor Program of the Greater Washington Metropolitan Area (“ACE DC”) welcomes Garry R. Boehlert, Esquire, a Partner at Saul Ewing, LLP (“Saul Ewing”), as the newest member of its Board of Directors.

“As a resident of the District, ACE DC provides me a platform to give back to the city and industry I so much enjoy. To help steer students into these challenging professions is very exciting to me. I am honored to be asked to join ACE DC’s Board.” said Mr. Boehlert.

Garry co-chairs Saul Ewing’s Construction Practice. He is active in all aspects of public and private procurement and focuses his practice on resolving claims and disputes arising from significant infrastructure projects. Garry regularly assists owners, contractors, sureties, specialty subcontractors and engineering/design firms with the drafting, review and negotiation of contracts and the evaluation, negotiation and litigation of claims.

Garry received his law degree from William & Mary Law School, and bachelor’s degree from the University of Virginia, with distinction. He is admitted to practice in the District of Columbia and Virginia. Prior to entering law, Garry worked on major construction projects such as the Trans-Alaska Pipeline and bridge construction on an interstate highway.

About the ACE Mentor Program – DC/MD/VA

ACE is an acronym for architecture, construction, and engineering. It is a unique partnership among industry professionals, college and university representatives and professional organizations throughout the Greater Washington Metropolitan Area. The ACE Mentor Program of DC/MD/VA is an award-winning, nonprofit organization whose mission is to enlighten and increase the awareness of high school students to career opportunities in architecture, construction and engineering – as well as other related areas of the design and construction industry – through mentoring and awarding scholarships. The program hopes to reach students of all demographics, especially those currently underrepresented in the industry.
